

SMART WIRED

Electrical Contractor

Electrical work, done properly.

EV chargers, board changes, rewires and commercial electrical work across Leeds, Yorkshire and surrounding areas.

A local firm, not a call centre.

Thank you for getting in touch. Before we meet, we wanted you to know who we are and how we work, so you know exactly what to expect.

SmartWired has been trading for over 20 years from our base at Mabgate in Leeds. When you call, you speak to us. The electrician who surveys your job is the one who does the work: our own NAPIT approved electricians, never subcontractors.

The SmartWired team

Registered, qualified and accountable.

- ✓ **NAPIT approved**
Notifiable work is registered with building control under Part P, and you get an Electrical Installation Certificate.
- ✓ **TrustMark registered**
The government-endorsed quality scheme for work carried out in and around your home.
- ✓ **OZEV approved installer, no. 13887**
Approved by the Office for Zero Emission Vehicles, so we can claim government EV charger grants for you.
- ✓ **Level 3 EV charging qualified**
The specialist qualification for installing electric vehicle chargers safely and to regulations.
- ✓ **BAFE registered**
Independently certified for fire alarm installation and maintenance.
- ✓ **AM2 qualified**
The industry's practical competence assessment, covering commercial installations.

YORKSHIRE PRESTIGE AWARDS 2026/27

SmartWired Electrical

EV Installation Specialist of the Year

Yorkshire's award-winning EV installers.

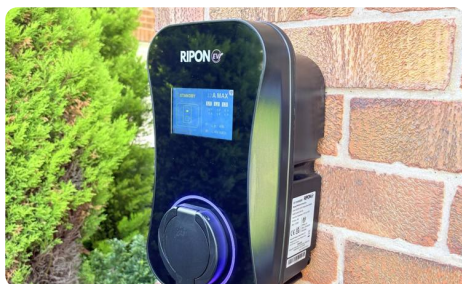

We were judged on the quality of our service alongside feedback from our customers. So this award was earned on real jobs, in real homes, and we're grateful to every customer who took the time to leave us a review.

"Excellent service from start to finish. The charger was installed on time with no hidden charges at all."

[EV charger customer, Google review](#)

Charge at home for a fraction of the cost.

What's included

- ✓ RiponEV Pro 7.4kW smart charger with app, Wi-Fi and load balancing
- ✓ Cable run to where you park, plus isolator and protection
- ✓ Testing, certificate and building control notification
- ✓ App set up on your phone, with a walkthrough before we leave
- ✓ Grant paperwork handled for you, if you qualify

Your choice of charger

Tethered or untethered, with or without a display.

3-year warranty

Most installs done in one visit, charging the same day.

Renting, in a flat or no driveway?

As an OZEV approved installer we check what you qualify for and handle the claim, so you don't have to.

EV chargepoint grant

For renters, flat owners and landlords with private off-street parking. Renters need their landlord's permission, and we can speak to your landlord if that helps.

Workplace Charging Scheme

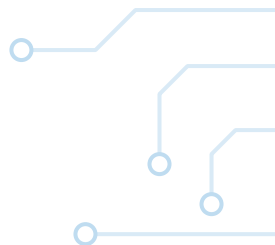

For businesses, including registered home businesses. We check eligibility first, then handle the application.

No driveway? Kerbo Charge

We're a Kerbo Charge partner installer. Kerbo fit a channel so your cable runs safely across the pavement and manage the council application. Once approved, we fit your charger. A cross-pavement grant may also be available.

Grant amounts, deadlines and council rules change. We'll confirm exactly what applies to you at your survey, before you commit to anything.

From first call to charging, in four steps.

1

Book a video survey

A short video call on your phone, at a time that suits you. We look at your consumer unit, meter and where you park.

2

Get a fixed written price

Charger position, cable route and your total, confirmed in writing. No surprises on the day.

3

Secure your date

A refundable deposit books your install, including if you're paying on finance.

4

We fit, you charge

Most installs are done in one visit, and you're charging the same day.

On installation day

- ✓ Power off only briefly while we connect
- ✓ Tested with a dedicated EV test adaptor
- ✓ Supply labelled with your next inspection date
- ✓ Cable route drilled, sealed and clipped neatly
- ✓ App set up on your phone, with you
- ✓ Certificate and paperwork emailed to you

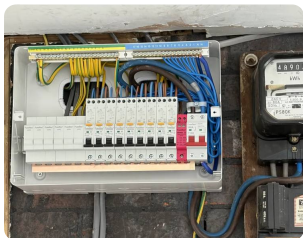

Make your home safe and up to date.

Consumer unit replacement

Older boards often lack RCD protection, which cuts the power in a split second on a live fault. Signs it's time: rewirable fuses, a plastic unit, trips that keep happening, or an EICR that has flagged it.

- ✓ Usually completed in one day
- ✓ Registered with building control, with certificate
- ✓ Every board labelled with its next inspection date

Full and part rewires

If your home still has rubber or fabric-covered cable, too few sockets, or wiring nobody has looked at in 25 years, a rewire is the safe fix.

- ✓ Planned room by room to keep disruption down
- ✓ Floors and furniture protected throughout

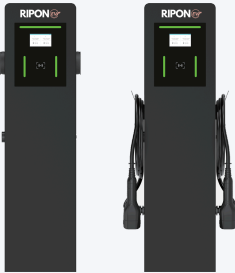

Built for businesses too.

Offices, shops, units, HMOs, landlords and blocks of flats, planned around your trading. AM2 qualified.

- ✓ Distribution boards and sub-mains
- ✓ Fit-outs and lighting upgrades
- ✓ BAFE fire alarms and emergency lighting
- ✓ Landlord EICRs and certificates

Commercial EV charging

RiponEV chargers, supplied and installed by us.

RiponEV Twin

Dual-socket, floor-standing three-phase charger for car parks and workplaces. 2×7.4kW, 2×11kW or 2×22kW.

OZEV approved

Workplace grant handled

Mobile DC

Compact Rapid

Ultra-Rapid Hub

Rapid DC charging for fleets, forecourts and car parks. Available to order.

24/7 emergency electrician

Nights, weekends and bank holidays across Leeds

0333 335 5767

What you can expect from us, every time.

Fixed written price

Agreed before any work starts. No hidden extras.

Our own electricians

NAPIT approved, never subcontractors.

Tested and certified

Every job, with the paperwork emailed to you.

Left clean and tidy

We protect your home and clear up before we go.

Reply within 24 hours

And 24/7 for emergencies across Leeds.

No pushy sales

Honest advice, and no obligation to go ahead.

0% finance on EV chargers, board changes and rewires

Spread the cost over 6, 9 or 12 months. Pay the monthly minimum or clear it early with no penalty. A £99 deposit secures your date.

Representative 0% APR. £99 deposit. Subject to status and affordability. SmartWired Electrical Contractor Ltd is not a lender; 0% finance is provided by PayItMonthly Ltd. Late or missed payments could impact your ability to access credit in the future. Terms and conditions apply.

What our customers say.

★★★★★ 5-star rated on Google

"I was really happy with the work that SmartWired Electrical did. Nothing was a problem and they were very professional. Work site was left tidy. Will definitely hire them again."

Simon W.

"He was attentive, informative, friendly, and punctual from start to finish. He took the time to make sure everything was done to a high standard and didn't rush off... He also took the time to walkthrough the set up of the app."

Smita B., West Yorkshire · EV charger

"Cannot recommend these guys enough... The boys were on time and very professional even when having to trace existing wiring thru the ceiling and walls and no hidden costs."

Chris R.

"Very professional and a quality job. Took pride in his work so will use these services again."

Melanie S.
